## JURY'S SERVICES ARE NOT REQUIRED

Farmer's National Bank of Newcas-  
tle is Awarded Jury, Trial Be-  
ing Held Without Jury

### GRAND JURY MEETS AGAIN

Makes Necessary Postponement of  
Two Criminal Cases Set For  
Tomorrow—Divorce Suit Filed

Court convened this morning af-  
ter a week's vacation on account  
of the holidays, and the jury was  
on hand to hear the case of The  
Farmer's National Bank against  
George Cox, but the case was tried  
without the services of the jury.

The case was a suit demanding  
judgment on a note, and the bank  
which is a Newcastle firm, was  
awarded judgment this morning af-  
ter the evidence was heard in the  
sum of \$179.34.

The two cases set for tomorrow  
of the state against Elbert Pool of  
Milroy for wife desertion, and of  
the state against Roe and Doe, the  
two men whose names were not  
learned and who gave bond in the  
sum of \$500 for having in their  
possession whiskey which was con-  
cealed in a big automobile left in a  
local garage, will not be tried on  
account of the grand jury being in  
session. The prosecuting attorney  
is occupied with the investigation.

The grand jury took up their in-  
vestigations today after a week's  
vacation and people were summon-  
ed from Carthage, north of Arling-  
ton and several from Rushville. This  
afternoon the grand jury visited the  
county jail and also made a trip to  
the county poor farm, which is a  
yearly event, so that a report may  
be made regarding these county in-  
stitutions.

It was not thought likely by Pro-  
secutor Stevens that the grand jury  
would complete their investigations  
today, but would be in session  
again tomorrow.

A divorce suit was filed this  
morning by Addie M. Warfield,  
against Uriah L. Warfield, the com-  
plaint being set forth in two para-  
graphs. Mrs. Warfield alleges that  
her husband and she have not lived  
together since April 1918 and were  
married 28 years ago in 1891.

The first paragraph alleges that  
he abandoned her in April 1918,  
and for many years previously had  
failed in his support for the fam-  
ily, and that she was compelled to  
take in washings for her family's  
support. There were four children  
born to them, the eldest now being  
25 years old, and the youngest 15  
years.

In this paragraph she asks the

French and British Governments  
Will Attempt to Have Wil-  
helm Tried Newspaper Says

### FIRST MENTION OF KAISER

(By United Press.)

Paris, Dec. 29.—The Echo De  
Paris said today the French and  
British governments have decided  
to ask for extradition of the former  
kaiser as soon as the provisions of  
the Versailles treaty are carried  
out.

London dispatches reported Brit-  
ish and French legal experts have  
been in consultation over punish-  
ment for German leaders guilty of  
war crimes and have exchanged  
complete lists of these to be pun-  
ished.

The former crown prince was  
mentioned among the guilty who  
face trial but no mention was made  
of the former kaiser.

## FAIRBANKS PICTURE SHOWN FOR FIRST TIME

"When The Clouds Roll By", For  
Which Tom Geraghty Wrote  
Scenario, is at The Circle

### WILL BE AT THE PRINCESS

"When The Clouds Roll By", the  
spectacular motion picture in which  
Douglas Fairbanks is appearing,  
and the scenario for which was  
written and prepared for the screen  
by Tom J. Geraghty, formerly of  
this city, was shown for the first  
time at the Circle theater in Indian-  
apolis yesterday. It was Mr. Ger-  
aghty's work on this picture that  
resulted in him being up permanent-  
ly with Fairbanks.

The picture will be shown at the  
Princess theater here, Walter Eas-  
ley, the proprietor, said today, just  
as soon as he enlarges the place and  
takes in the room in the Masonic  
Temple occupied by the bowling al-  
ley. Mr. Easley hopes to be able to  
begin remodeling January 19 and to  
complete the work in thirty days so  
that he may reopen February 21. He  
will endeavor to get "When The  
Clouds Roll By" for the opening.

"When The Clouds Roll By" was  
released and a few Rushville people  
saw it at the Circle. It is said to be  
the best thing in which Fairbanks  
ever played. It is based on super-  
stition and contains many unusual  
scenes.

## NEW EVIDENCE IS ALLEGED

Mexican Authorities Complete In-  
vestigating Jenkins Case

(By United Press.)

Mexico City, Mex., Dec. 29.—The  
supreme court of Mexico City will  
decide within 15 days whether Wil-  
liam Jenkins, American consular  
agent, will be tried in the federal  
court or the state court at Puebla.  
Julio Mitchell, prosecuting attor-  
ney of Puebla, who had been col-  
lecting evidence in the Jenkins case  
completed his report and turned the  
list over to the supreme court. It  
was stated today that he had found  
new and more dangerous evidence  
against Jenkins.

## FOUR INSTITUTES SET FOR JANUARY

Will be Held at Arlington on the 2nd,  
Moscow 3rd, Mays 7th and  
Milroy The 24th

### DR. L. C. KIGAN WILL SPEAK

Will Discuss Swine Diseases at  
Three Meetings—Carthage's  
Institute is Cancelled

The Rush county institutes are  
promised some very interesting lec-  
tures this year, according to Mar-  
ion F. Detrick, county agricultural  
agent.

Dr. L. C. Kigan has been sched-  
uled for Mays, Arlington and Mos-  
cow. His subjects are: "Hog Chol-  
era and Its Control," "Swine Dis-  
eases and Their Prevention," "F...  
Sanitation," "Contagious Abortion  
in Cattle and Hogs," and "Common  
Sheep Diseases."

So much difficulty has been ex-  
perienced in the past two years  
with peculiar diseases in swine that  
the presidents of the institutes at  
a meeting last spring asked the di-  
rector of institute work to schedule  
a speaker who could handle this  
subject. In response Dr. Kigan will  
be sent. Dr. Kigan is a graduate of  
the Indiana Veterinary College, has  
spent several years practicing in  
Rush county and later became state  
veterinarian in Nebraska. He is now  
associate veterinarian of Indiana's  
extension department.

The institutes will be held at  
Arlington January 2, Moscow Jan-  
uary 3, Mays January 7, and Milroy  
January 24.

The Carthage Institute has been  
cancelled because there is no con-  
venient place to hold the meeting.

## FORMER RUSHVILLE ATTORNEY SUCCEUMS

Thomas J. Newkirk of Evanston, Ill.  
Expires at Altona, Fla., While  
Spending Winter There

### BROTHER AND 3 SISTERS HERE

Relatives here have received word  
of the death of a former Rushville  
attorney, Thomas J. Newkirk, who  
died yesterday in Altona, Fla.,  
where he and his wife were spend-  
ing the winter. The nature of his  
death was not learned by local re-  
latives, who are his brother, James  
L. Newkirk of Sexton, and three  
sisters, Mrs. Joe Vandement of  
Gings, Mrs. Rolla Zorne of near  
Raleigh and Mrs. Sallie O'Keefe of  
Gings.

The deceased was a resident of  
this city for a number of years and  
was engaged as a lawyer in the  
firm of Smith and Newkirk, being a  
partner with the late Ben J. Smith.  
He left here in 1892, going to Rich-  
mond, Ind., where he was engaged  
as an attorney. His home in re-  
cent years has been in Evanston,  
Ill. Mr. Newkirk was 65 years old.

The message as received here was  
to the effect that the remains will  
be sent here for burial, and the date  
of arrival will be announced later,  
as the relatives were not advised  
when the remains would be shipped.

### TWO LICENSES ISSUED

The following marriage licenses  
were issued Saturday: Elmer L.  
Thorpe and Marie E. Modder, both  
of this city and Michael M. Delaney  
of DeQueen, Ark., and Lois Mattix

## BIRD HOSPITAL IS SUBJECT OF ARTICLE

Dr. William W. Arnold of Colorado  
Springs Describes His Work in  
Peoples Home Journal.

### ADDRESSED LOCAL SCHOOLS.

Dr. William W. Arnold of Color-  
ado Springs, Colo., who was born and  
reared here and is extensively  
known throughout the county, has  
an interesting article in the current  
number of the People Home Journal  
on "My Hospital For Birds." Dr.  
Arnold has gained fame nationally  
for the work he has done among  
birds, but long before his name be-  
came known outside of the commu-  
nity in which he lives. Dr. Arnold's  
friends here knew of his love for  
birds and how he had interested  
himself in their welfare.

Dr. Arnold has probably the only  
bird hospital in the world. On his  
visits to his old home here, Dr. Ar-  
nold has always addressed the  
Rushville schools regarding his  
work with the birds. On one occa-  
sion, he described how crippled birds  
were brought to him by the scores  
after a sleet storm in Colorado  
Springs and how his hospital was  
filled to overflowing. All of this is  
described in detail in the magazine  
article, accompanied by illustra-  
tions.

Dr. Arnold is a brother of Mrs.  
Mary J. Holmes of this city and  
John Arnold, who lives east of  
Rushville.

## FINISHES PLANS FOR DANCE

American Legion to Charge \$1 Ad-  
mission For Benefit Hop

Arrangements have been com-  
pleted for the benefit dance for  
Rush post No. 150 of the American  
Legion at the Modern Woodmen hall  
Wednesday evening. Final details  
were arranged at a meeting Satur-  
day night, when it was decided to  
charge \$1 a couple for dancers. The  
music will be provided free of  
charge by a jazz orchestra which  
will be here with a naval recruit-  
ing party Wednesday and Thursday.  
The use of the hall is donated by  
the Woodmen.

On Wednesday afternoon and  
evening preceding the dance the or-  
chestra and a quartet will give a

## COAL COMMISSION IN FIRST SESSION TODAY

In Another City Leading Operators  
Gather to Decide on Attitude  
Toward Tribunal

### SAY INCREASE IS IN SIGHT

(By United Press.)

Washington, Dec. 29.—The tribu-  
nal of three members appointed by  
President Wilson to investigate the  
coal controversy and recommend a  
new wage scale, met shortly after  
11 o'clock today.

An announcement of the future  
plans for the tribunal probably will  
be made following the meeting. Sec-  
retary of Labor Wilson was called  
into the meeting of the tribunal to-  
day.

Chicago, Ill., Dec. 29.—Leading  
coal operators of the country were  
in conference today to decide the  
attitude toward President Wilson's  
coal commission.

Bituminous mine operators claim-  
ed that the 14 percent wage in-  
crease granted by the commission  
will bring the prices of soft coal  
so high that it will ruin their busi-  
ness.

The use of fuel oil has already  
become serious and future increases  
may result in a general falling off  
in the use of bituminous coal, it  
was said.

## AMOUNT IS NOT DIVULGED

Contributions to Jewish Relief Fund  
Not Taken at All Churches

The amount raised for the Jews  
in Europe at Rushville churches  
Sunday was not divulged today be-  
cause no subscriptions were taken  
at St. Paul's M. E. church. The ap-  
peal was postponed until next Sun-  
day because it was felt that the  
time was not opportune. It is re-  
ported that very substantial contri-  
butions were made at the other  
churches Sunday, and when com-  
bined with the Methodist congrega-  
tion's donations and what has al-  
ready been given by individuals, the  
amount from Rushville will make a  
good showing.

## NEARLY SUFFERS COLLAPSE

Harry New Delays Start of Murder  
Trial 10 Minutes Today

(By United Press.)

Los Angeles, Calif., Dec. 29.—The  
trial of Harry S. New, charged with  
the murder of Freda Lesser, was  
resumed shortly after 10 o'clock  
today. The trial was delayed by 10  
minutes by the failure of New to  
appear. The defendant's attorneys  
stated that the delay was due to the  
condition of New, who nearly suf-  
fered a collapse. His condition is  
being closely watched.

## INQUIRIES HELD AS CONFIDENTIAL

Information in Census Can Not be  
Used as Basis For Taxation  
or For Any Other Purpose

### IS SOME MISAPPREHENSION

Enumerators For This County Not  
Announced Though Work For-  
mally Begins Next Monday

Although the government census  
begins next Monday, enumerators  
for this county have not yet been  
announced by the district super-  
visor, Jess Stevens of Liberty. It  
is expected, however, that those  
who will take the enumeration of  
the population and gather other  
statistics required by the govern-  
ment will be announced in a few  
days.

The census is the means by which  
the government ascertains the in-  
crease of population, the statistics  
concerning agriculture, and the vital  
information concerning resources  
of the nation. The census is re-  
quired every ten years by the con-  
stitution of the United States and  
by an act of congress. The date for  
the beginning of the 1920 census is  
January 2, but the "Census Day" is  
January 1. In cities, the population  
enumeration will be completed in  
two weeks. The enumeration of  
farms will be completed within  
thirty days.

The census of manufactures,  
mines and quarries, oil and gas  
wells, and forestry and forestry  
products, as a rule, will be taken by  
special agents and by correspond-  
ence and not by enumerators. The  
census inquiries are defined by act  
of congress and the information  
gathered is strictly confidential and  
is made so by law. Census infor-  
mation can not under any circum-  
stances, be used as a basis for tax-  
ation nor can it be used to harm  
any person or his property, it has  
nothing to do with the detection,  
arrest, prosecution, or punishment  
of any person for a violation of any  
law.

The act of congress providing for  
the census makes it the duty of all  
persons to furnish the information  
asked for by the enumerators. To  
fill out the census schedules. No  
person should hesitate, neglect or  
refuse to answer fully and accu-  
rately all the enumerator's questions.  
He only asks the questions neces-  
sary to fill the schedules as required  
by congress.

Keepers of hotels, department  
houses, boarding or lodging houses  
or tenements, must assist the enu-  
merator in getting the information  
required concerning the persons  
living in such hotels and houses.

## PLAN DRIVE TO KILL TWO RAILROAD BILLS

Railroad Union Heads Meet in  
Washington Today to Discuss  
Wage Increases Also

### EFFECT OF ROADS' RETURN

Washington, Dec. 29.—A drive to  
kill railroad legislation such as the  
Cummins and Esch bills, now be-  
fore congress, will be the principal  
task undertaken by the conference  
of railroad union heads, which met  
here today.

Wage increases, industrial com-  
mission reports and the effect of the  
return of the railroads March 1  
are the other matters that will be  
considered by the railroad men.

The railroad union heads object  
to the Cummins bill because of the  
anti-strike provisions and other  
say that the Esch bill has a rider  
which in effect prevents strikes.

Had to Spend Weeks in Bed

Gains Eighteen Pounds Taking Tanlac—Hasn't Felt So Well Since She Was a Child.

I haven't felt so perfectly well in every way since I was a girl, and I have gained eighteen pounds in weight since I commenced taking Tanlac," said Mrs. W. I. Cabert, who lives at 206 Edmund street, Peoria, Ill., the other day.

"It certainly seems remarkable to me," she continued, "that a few boxes of Tanlac could make such a wonderful change in my condition after everything else I had tried for nine long years had failed to help me at all. I suffered from a pain across the small of my back nearly all the time, and this trouble finally got so bad that I couldn't walk up a short flight of steps without stopping to rest. If I tried to do a little work around the house I would be laid up in bed for days from it, and my back would hurt me so bad I could hardly turn over in bed. My stomach was in bad condition, too, and everything I ate disagreed with me. I would be nauseated after eating anything, and would often have severe cramping pains in the pit of my stomach. I was so nervous I couldn't sleep well, and many nights I would have to get up and sit in a chair for hours at a time, and nearly every morning I would get up with a raging headache. These troubles just kept getting worse all the time until I finally got to where I was hardly able to be up very long at a time, and had to spend weeks in bed.

"One day one of my neighbors came in and told me what great things Tanlac had done for her, and advised me to give it a trial, so I got my husband to get me a bottle and I commenced taking it. I can truthfully say that I felt better in just a few days after I began taking this wonderful medicine, and from that time on I improved every day. Now I am as well and strong as I ever was in my life, and can do all my housework and family washing without the least trouble. Those awful headaches have left me entirely, and my nerves are in such perfect condition that I sleep like a child every night. I never had a better appetite, can eat three hearty meals every day without the least bit of trouble afterwards. I am also glad to say that the pain has left my back altogether, and I can run up and down stairs now as well as I ever could. In fact, I just couldn't wait for better health than I am now enjoying, and I'll tell the world that Tanlac is solely responsible for it all."

Tanlac is sold in Rushville by F. A. Johnson & Co., in Milroy by Dal. Miller, and Arlington by Mrs. L. T. The Cooper, in Manilla by Geo. J. Davis. (Adv.)

SPENDS SUNDAY IN THE CITY

Sen. Watson Returns to Indianapolis Today After Visit Here

Senator James E. Watson visited friends here Saturday evening and Sunday and returned to Indianapolis today, where he was scheduled to hold several political conferences before returning to Washington. In informal discussions here Senator Watson expressed the same opinion as he did in an interview given out in Indianapolis Saturday afternoon, and published in the Daily Republican—that the peace treaty would be ratified within sixty days with reservations, which would be practically the same as those submitted to a vote in the senate a few weeks ago.

LANDMARKS WERE EVEN DESTROYED

Thousands of Belgian Families Will Never be Able to Locate Their Former Lands

WERE EFFACED BY THE WAR.

Opinions Differ as to What Will be Done When the Exiled Arcadians Finally Arrive

By EDWIN W. HULLNER  
(U. P. Staff Correspondent.)

Ypres, Belgium. (By Mail).—Thousands of Belgian families probably never will find their former homes in No Man's Land.

All means of identifying them have been shot away.

They will find homes, of course, somewhere in that desert waste,

perhaps in a place used to be some body else's home. But the exact location of their own sacred bit of ground may forever remain a mystery.

Nearly five years of ceaseless bombardment has obliterated the landmarks upon which the pre-war land surveys were based. The old boundaries which distinguished one farm from another have literally been pounded into the earth—too deep for resurrection.

New surveys will come in time probably more scientific than the old. Everyone who once owned part of the great battlefield will receive something, equal in size and as near as possible to where his former home is thought to have been.

But in another sense, this can never compensate. Nor can the old peace of mind ever fully return to folk so attached to their own little piece of earth that nothing else than certain death from shellfire—and sometimes rape, even this—could induce them to desert it.

This is the fate of thousands of human stories in Belgium. The desolation which reaches here beyond every range in every direction—once one of Belgium's most beautiful farming districts.

As yet, very few home-seekers have returned. Of these, some took one despairing look at the miles of water-logged shell areas and clumped back on a train for the place from whence they came—to wait a few months more until the process of reclamation has had time to make a little progress.

Others are still searching among the ruined trenches and shell-holes, filled with marshgrass and stagnant water for clues to their homes.

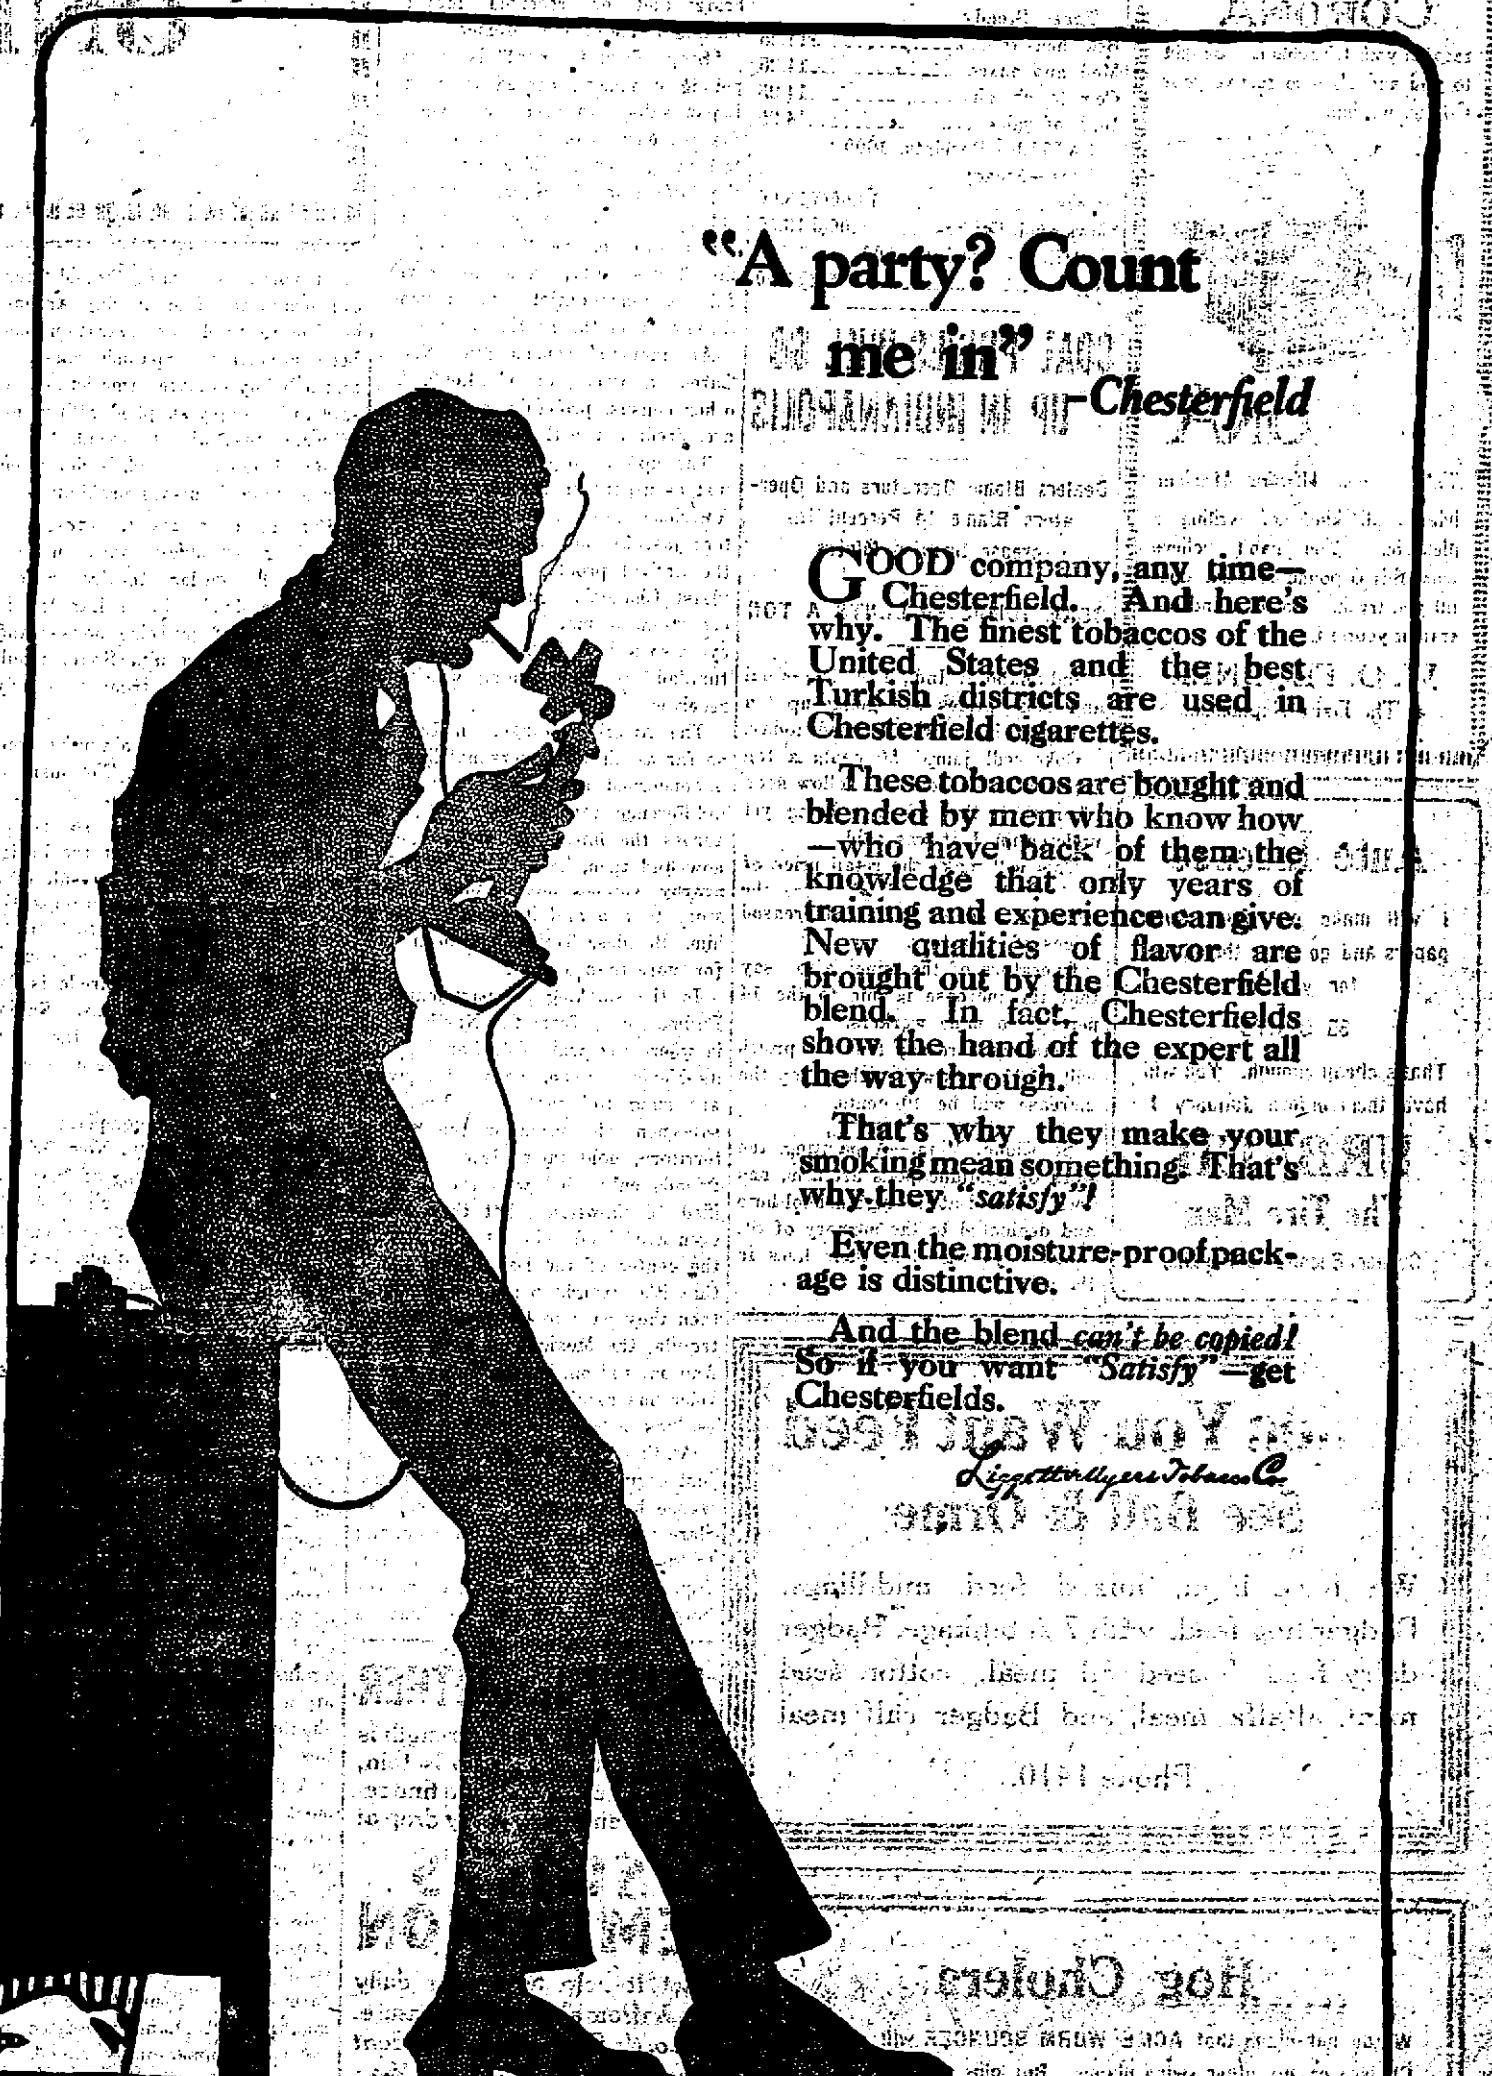

The big stone at the corner boundary—and from which, perhaps, all surveys for the entire neighborhood were made—the well in the front yard, the house, the barn, the shade-tree over the gate—all have simply disappeared under war's terrible effacement. Nothing remains to indicate where they once were.

What will happen when the "real" Arcadians finally arrive? Opinions here differ.

Some predict a general scramble to stake out plots on the most desirable—or rather least undesirable—locations, a mild restaging of some of the incidents in our own American history, such as when the squatters rushed into the middle-west.

And then a long series of disputes and complications when others arrive who believe themselves the rightful owners of the "claims," with probably years of legal entanglements in court. For it is easily conceivable that under prevailing conditions it might be extremely difficult to dislodge a claim-jumper.

Sydney, N. S. W.—Not quite alike was the opinion of English, American and British fashions, expressed by Lady Davidson, wife of the governor of New South Wales. She advised Australian women that they have nothing to do with them.

## Topsy-Turvy Diplomacy

The topsy-turvy diplomatic relations between the United States and Mexico have been brought to light during the inquiry conducted by a special senate committee, but nothing has been quite so enlightening as the testimony of William F. Buckley, and American resident of Mexico City, who has devoted the past few years to the collections of facts bearing upon the relations of the two republics.

Particularly interesting and important is Mr. Buckley's affirmation of the oft-repeated charge that it has been the President's policy of ignoring the usual methods of handling international relations and taking them entirely upon his own shoulders, with the assistance of secret agents, which has brought about a large part of the accumulated Mexican mess. On this point, Mr. Buckley said before the committee:

"Soon after his election, President Wilson introduced an innovation in the diplomatic policy of the American government. This Government was represented in Mexico City by an honorable man, who had served his country well—Mr. Henry Lane Wilson—who soon discovered that his Government neither consulted him nor confided in him. Mr. Henry Lane Wilson was the representative of the American Government, but President Wilson preferred to conduct foreign negotiations through his own personal representatives. The State Department was eliminated at once from the field of diplomatic relations with Mexico, and, since the accession of Mr. Wilson to office, has not had anything to do with the formulation of our Mexican policy, and very little to do with the carrying out of this policy. Because of his policy of insisting that the rights of Americans in Mexico be respected, and because he showed resentment in not being taken into the confidence of his own Government, Ambassador Wilson was recalled from Mexico. All manner of scurrilous rumors with regard to this gentleman, among them allegations to the effect that he was responsible for the murder of Madero and had actually conspired at this murder, were carefully spread in the United States by Carranza propagandists and by the representatives of the President, among whom Mr. John Lind distinguished himself: rumors which the American Government knew to be untrue and which it could have suppressed by merely denying them."

"These gentlemen," said Mr. Buckley, "almost without exception, became ardent admirers and advocates of the causes of the particular faction to which they were ac-

## Women Have Hearts

Four women were recently excused from a jury because they declared that under no circumstances would they vote to inflict capital punishment.

Some day the influence of our women may be the means of abolishing capital punishment entirely.

If a man is sent to prison for life, and is later proven to be an innocent victim of circumstances, as is often the case, he can at least be liberated for the remainder of his days. But if he is hung it would be rather difficult to bring him back to life again.

Women have hearts.

In order to keep warm during the coal strike many people had to resort to the use of fuel oil. The result, of course, was just as expected. The oil profiteers kicked the price up something like 300 percent. And profiteering on the spoils of calamity is about the limit of human degradation.

Just to even things up a bit, our crop of distinguished presidential possibilities might come out with some clear cut and plain English declarations of their principles.

Be good to the new year, and it may be the same to you.

PLACED ON TRIAL  
FOR MURDER TODAY

Three Men Accused of Killing Carl H. Cook in LaPorte Christmas Eve 1918, Tried at South Bend

## ALL ARE MODEL PRISONERS

(By United Press.)

South Bend, Ind., Dec. 29.—Three men were to go on trial here today for the murder of Carl H. Cook in LaPorte on Christmas eve, 1918. The alleged murderers were Walter Baker, Steve Bartak, and Ernest Garipey.

Mrs. Baker has been near her husband while he sat in jail awaiting trial. She worked as a domestic for Sheriff L. B. Duck.

Sheriff Duck said today that the men have been model prisoners. He said that Bartak at first was obsessed with a bravado but that that spirit had disappeared. Garipey has enjoyed the liberty of a trusty.

The case centers to a great extent around Baker. It has been reported that his attorneys are willing to withdraw their plea of not guilty if the state agrees not to demand more than life imprisonment. The case attracted attention throughout the middle west when the murder was committed.

## Our Daily Laugh

New and Bright Yarns That Will Tickle You and Will be Relished by Your Friends When You Repeat Them

A long-winded minister, with a record of sermons averaging an hour and a half, was denounced a nuisance by many, but a blessing by a few who knew how to take advantage of a weekly sermon which ran at least an hour. One Sunday morning the minister had begun a tour of ancient Babylon, and it was dry stuff, mighty dry. He heard a peculiar sound, and it was repeated. He saw a youngster in the gallery tossing horse chestnuts at the heads of his congregation. Hastily the sexton was summoned and when that worthy scrambled upstairs and reached the front rail, the youngster said in an audible whisper: "Say Bo, you tell the parson to stick to his preachin' and I'll keep all them other guys awake."

Never since the day that William  
 Tell shot the apple off his son's head  
 have the Swiss faced a situation in  
 which they feel that their national  
 and individual existence is so  
 threatened as now, and that from  
 a danger that no people, no nation,  
 no race has ever yet faced—that of  
 being "cosmopolitanized."  
 For even New York, with its mil-  
 lion Italians, its several million  
 Jews and its hundreds and hundreds  
 of thousands of various other na-  
 tionalities, the city still remains es-  
 sentially American.  
 But Switzerland is convinced she  
 can hope for no such luck. If she  
 permits herself to be swamped with  
 the waves of people that are now  
 pouring over her borders, she is  
 fully persuaded that not only will  
 it be mighty hard in the end to find  
 any trace of the Swiss people but  
 that the country itself, unlike Amer-  
 ican New York, will lose all char-  
 acteristics and all individualities  
 that now mark Switzerland as  
 Swiss.  
 Since the outbreak of the war  
 Switzerland has become the Mecca  
 of all European people seeking re-  
 fuge for various reasons from var-  
 ious disasters that threaten them in  
 their own country. In the early days  
 of war, and as far as that is con-  
 cerned, for years preceding, the  
 great motive for moving into Swit-  
 zerland and becoming a Swiss ci-  
 tizen was to escape obligatory mili-  
 tary service in one's own country.  
 Before the war this was only a sort  
 of nightmare and caused probably  
 the "Swiss-flaunt" of only a few  
 hundred or a few thousand Rus-  
 sians, Germans, Italians, French,  
 Hungarians, Austrians and others.  
 When, with the outbreak of the  
 war, this nightmare became a living  
 reality naturally the number of  
 those who felt an irresistible charm  
 for Switzerland increased and con-  
 tinued throughout the entire period  
 of the war.  
 And now, following the armistice  
 and peace, the number is even  
 greater than ever although for dif-  
 ferent reasons. While Switzerland  
 is still attracting hundreds and  
 thousands of political refugees who  
 for one reason or another are per-  
 sona non grata in the new states,  
 and even the old ones, that are  
 growing out of the peace confer-  
 ence adjustment, yet by far the  
 principal number now seeking to  
 ooze into Switzerland are men of  
 great wealth, usually war profit-  
 eers, who are seeking to escape the  
 burden of taxation awaiting them if  
 they continue their citizenship in  
 any one of the countries that went  
 to war and now has a war-indebted-  
 ness to pay off.  
 While hundreds and thousands of  
 the political refugees such as de-  
 throned monarchs and discredited  
 statesmen who escaped into Swit-  
 zerland were usually able to bring  
 with them a goodly portion of their  
 fortunes, yet these latter are mere  
 bagatelles compared with the gigan-  
 tic sums which war profiteers and  
 others are trying to smuggle over  
 the Swiss frontier in order to es-  
 cape the war-tax collector.  
 In any large European country  
 this access to the population of a  
 few hundred or a few thousand men  
 of vast wealth would not constitute  
 a danger and would be encouraged  
 as a highly desirable addition to the  
 nation's wealth and population.  
 In a small country like Swit-  
 zerland, however, the situation is  
 vastly different. The Swiss see  
 clearly that all of this vast wealth  
 now coming into the country will  
 eventually be invested in Swiss in-  
 dustries. That means at the end of

a year all the financial, industrial  
 and economic life of the country will  
 be in the hands of foreigners.  
 Then from private control to pub-  
 lic control is but a step. The natu-  
 ralization laws in Switzerland at the  
 present time are very loose and  
 easy. Only a very short time is nec-  
 essary for all these wealthy fore-  
 eigners to become Swiss citizens, to  
 become eligible for all the public of-  
 fices from the highest down.  
 As a consequence they are now  
 putting up a valiant fight to save  
 themselves from this "cosmopoli-  
 tanization" largely through the re-  
 vision of their naturalization laws  
 and their regulations permitting for-  
 eigners to reside in their country.  
 Before the war there was proba-  
 bly no country in the world where it  
 was easier to get naturalized either  
 by honest or dishonest means than  
 in Switzerland. All that was neces-  
 sary was for a foreigner to take up  
 residence in some Swiss canton and  
 after two years the Canton authori-  
 ties had the right to grant Swiss  
 citizenship. As a matter of fact  
 hundreds if not thousands were able  
 by the payment of a little hush  
 money to induce the local authori-  
 ties in some out of the way canton  
 not only to shorten this period of  
 time but even to render actual resi-  
 dence unnecessary.  
 This possibility was greatly tak-  
 en advantage of before the war by  
 citizens of Austria, Italy and other  
 countries where divorce laws do not  
 exist or are very difficult. By going  
 up to Switzerland and arranging  
 with the local Swiss authorities to  
 become naturalized in a remarkably  
 short period of time, then secure a  
 divorce under Swiss laws they could  
 return to their native country, and  
 either resume their original citizen-  
 ship just as they pleased or not, and  
 eventually remarry.

To remedy all of this a number  
 of projects are now before the Swiss  
 federal council tending to render  
 Swiss naturalization a most difficult  
 thing to secure. Perhaps the most  
 drastic of these provides that the  
 foreigner must first demand from  
 the Swiss federal council the right  
 to naturalization which will still be  
 granted as heretofore by the local  
 cantons but only with the permis-  
 sion of the federal council. The lat-  
 ter will require that each applicant  
 during the fifteen years preceding  
 his request for naturalization shall  
 have passed at least twelve years in  
 Switzerland including the last two  
 just preceding his request.  
 Another project before the coun-  
 cil provides that no naturalized  
 citizen can hold a public office un-  
 less he has lived in the country at  
 least twelve years between the age  
 of five years and the time they at-  
 tain their majority.  
 Already during the war scores of  
 the principal public offices in the  
 various Swiss cantons were filled by  
 naturalized Swiss who had the real  
 interests of almost every country at  
 heart except those of Switzerland.

The home of Mr. and Mrs. M. L. Stewart of near New Salem was the scene of a delightful party Friday evening when Mrs. Wilbur G. Ste-

vens entertained seventy-five guests with a miscellaneous shower for Miss Anna Holton, whose marriage to Paul L. Stewart will take place during the holidays. The house was elaborately decorated with festoons in holiday colors and large and small Christmas bells. The table upon which the gifts were display- ed was centered with a miniature Christmas tree gaily decorated with tapers and ornaments of tinzel and small candles. An interesting fea- ture of the evening was the mock wedding ceremony. The doors of the parlor, which had hitherto been closed, were thrown open, reveal- ing a beautiful white arch in one corner in the center of which was a large wedding bell. Miss Ruby Stewart played the wedding march for the entrance of the bridal party which consisted of Scott Hosier, usher; Mrs. Wilbur Stevens, matron of honor; Mrs. Scott Hosier, brides- maid, and Wilbur Stevens, best man, followed by Miss Holton and Mr. Stewart. The ceremony was pronounced by the Rev. Talmage Deftrees, pastor of the Little Flat- rock Christian church, and it was

only when the usual questions were changed from the serious to the rid- iculous that the crowd realized, it was all a joke. The remainder of the evening was spent in contests, the prize for the last one being a card announcing the engagement of Mr. Stewart and Miss Holton, the wedding to take place in January. The wedding colors of pink and white were carried out in the re- freshments and small wedding bells were given as favors. Miss Holton is principal of Webb's school and Mr. Stewart is a well-known farmer of near New Salem.

In the last paragraph she sets forth that her husband was a drunkard, a user of profane and vulgar language, and on one occasion before their last separation, he threw a hammer at her, missing her head only a little distance, and the hammer went smashing through a door.  
Besides asking for a divorce and custody of the children she also asks that the costs, in the case be placed against him, as she is with- out money or means of obtaining a divorce. Mrs. Warfield gave her address in the complaint at 326 E. 10th Street.

Farmers Federation Movement  
Which Will Mean Saving of  
Thousands to Farmer.

DIRECT SHIPMENTS URGED

Federation Could Establish Department to Keep in Touch With County Representative.

Indianapolis, Ind., Dec. 29.—A movement is on foot fostered by officers of the Indiana Federation of Farmers' Associations, which, if carried out with success will mean saving of thousands of dollars annually to the farmers of the state who raise live stock for the market, eliminate guess work on what prices they are to receive for their stock when it is ready for shipment, and save them much time and labor.

At an executive board meeting of the Indiana Federation of Farmers' Associations President John G. Brown outlined a plan for establishing a central clearing house for live stock producers whereby a system of eliminating the use of stock yards and encouraging direct shipments from farm to the packing and slaughter houses would be followed. He expressed the opinion that the federation could establish a live stock department which would keep in touch with the various county representatives, and that useless freight, commission and yardage charges, which come off the producer, could be greatly reduced. "We find that many times a producer will ship his cattle or hogs to the stock yards, and that the very same stock is reshipped over the same railroad line back past its original starting point to one of the packers," said Mr. Brown.

"By working out a system of direct from farm to packing houses many of the over-head costs which are handicapping the producers will be discarded. We can establish a live stock department of our federation which can keep in close touch with market conditions, and keep records of how much stock is for sale and just when it will be ready for the slaughter house. The plan has many excellent features which can be worked out to save useless overhead expenses, and at the same time assist materially in reducing car shortages which are reported by the railroad administration. Under this plan only one loading and shipping is necessary."

Mr. Brown said that he expected to call a meeting of live stock producers within the next two weeks for the purpose of submitting his plan for their consideration. Maurice Douglas, second vice-president of the federation, was appointed to select another representative, aside from himself and the committee of two go to Nebraska to study and make a report on a co-operative live stock shipping commission company reported to be saving farmers many thousand dollars.

During the last week, William Bosson, treasurer of the organization, represented the Indiana federation at a big gathering of farmers held at Robinson, Ill. Many farmers' meetings about the state are scheduled for immediately after the holidays which will be attended by officers from the state body.

"Told in the Hills" at Princess

During the filming of "Told in the Hills," the new Paramount-Aircraft picture starring Robert Warwick, which will be shown at the Princess Theatre tonight, the scenario called for Mr. Warwick to be initiated into a tribe of Indians.

The picture was photographed in the Nez-Perce Indian country, and several hundred members of that tribe were, after some difficulty, persuaded to act as "extras" in the production. They immediately became much attached to Major Warwick, admiring his splendid physique, his brilliant horsemanship, and his skill with a rifle.

When it came time for the initiation scene, Director Melford was extremely gratified at the thoroughness and vigor with which the redskins went about the interesting ceremony. What was Major Warwick's surprise at the end to be informed that the rites had been administered not as acting, but in

deadly earnest, and he was now a full-fledged member of the Nez-Perce.

"All of which is very gratifying," said Major Warwick, "especially as I understand there are no dues." Ann Little is his leading woman.

Mystic Program For Tonight

The program at the Mystic tonight will consist of the 12th episode, "The Tunnel of Terror," featuring James J. Corbett. Besides this feature there will be an L-Ko comedy, "Brown Eyes and Bank Notes," which is said to be one of those famous laugh producers for which the L-Ko comedies are noted. The closing reel will be a Universal Current event picture, which gives news of the happenings in various parts of the world.

Tomorrow's feature will be "The Girl Alaska," a picture of the extreme north country, showing gold mines in operation.

Brighton—The first real "flying matinee" was pulled off when, the "House of Peril" company flew by seaplane from the Eastbourne pier theater over sea to the pier theater here.

SHIPPING SHOWS INCREASE

Canadian Shipbuilding Amounted to 50 Vessels in June 1919 (By United Press)

Montreal, Que., Dec. 29.—Canadian shipbuilding increased from eighteen vessels in 1914 to fifty-nine at the end of June, 1919, according to a report of Lloyd's registry just made public here. The corresponding tonnages in 1914 and 1919 were given as 14,184 and 153,542, respectively.

The port of Montreal has been closed for the season, as far as ocean-going vessels are concerned. The last ship to depart from here was the freighter Bassa for South Africa ports.

These towns would enter teams. Richmond would be represented by the Em-Roes, Panhandles, Marines, Reserves and Old Hi teams.
